Due to the printing process, colors may vary.

- Composite overlays and steel base are available in White, Almond, Desert Tan and Sandtone. Overlay and steel base colors can be mixed to achieve desired look.
- Coachman® Collection doors can be painted using a high-quality exterior latex paint. IMPORTANT: When painting your door, we require use of either a pre-approved paint or paints having an LRV (Light Reflective Value) of 38 or higher. Use of other paints will void the door’s warranty.

A list of pre-approved paints can be found at http://info.garagedoors.com/lrv

The Coachman® Collection gives your home classic elegance while complementing your home’s architectural style. With four distinctive series, the Coachman Collection offers the sophisticated expression of a carriage house door with the science of durable steel and composite construction. It’s the perfect blend of beauty and practicality—masterful in the details and innovative in design—and it’s only from Clopay®.

4-Layer Construction

Coachman Collection® doors featuring Intellicore® insulation technology represent the ultimate smart choice for homeowners. Clopay’s Intellicore is a proprietary polyurethane foam that is injected into a garage door, expanding to fill the entire structure. The result is a door with incredible strength and durability. Its dense insulation also produces a quieter door, while its industry-leading 18.4 R-value provides year-round comfort and improved energy efficiency. Smart, indeed.

Calculated door section R-value is in accordance with DASMA TDS-163.
SERIES ONE of the Coachman® Collection proves that in simplicity, there is sophistication. Architectural home designs such as Mission, Shaker, Country and Prairie look beautiful with the understated elegance of this classic look. Your choice of rectangular, square, arched windows or a solid top section provides that finishing touch.
